SOFT SKILLS

- Manual Testing, Functional & Integration Testing
- Bug Reporting & Tracking
- Test Case Design
- Software Requirements Analysis
- MVC Architecture, Git & Version Control.

PROFESSIONAL SUMMARY

Detail-oriented and analytical IT undergraduate specializing in software testing, quality assurance principles, and system evaluation. Equipped with a strong technical foundation in Python, Java, and database systems, eager to secure a Quality Assurance Intern / Associate position to ensure high software reliability, conduct rigorous functional and system testing, and deliver seamless user experiences

EDUCATION

Higher National Diploma in Information Technology (HNDIT)
– [SLIATE]

Undergraduate – Expected Graduation - [2027]

G.C.E. Advanced Level – [Mt/ Christ Church College] – (BCS)

TECHNICAL SKILLS

Programming Languages: Python, Java, PHP, C#, SQL

Testing & Development Tools: VS Code, NetBeans, Git, XAMPP, Postman (familiar)

Databases: MySQL, MongoDB

Frameworks & Web: Flask, Django, Laravel, Java Swing, HTML5, CSS3, JavaScript, SQL.

PROJECTS

AI-Powered Student Inquiry Classification & Learning Analytics System (*Python, Flask/Django, MySQL*)

- Executed systematic testing and validation of NLP components (spaCy, NLTK, Transformers) for bilingual student inquiry parsing.
- Identified edge cases in query classification data pipelines, ensuring robust error handling and high classification accuracy.
- Validated database logging mechanisms (MySQL) to ensure data integrity and secure retrieval of user interaction logs.

Fresh Slice 65 (Bakery Management System) (*Java Swing, MySQL, NetBeans*)

- Conducted thorough interface and functional testing on Java Swing GUI modules to prevent user input errors and ensure smooth navigation.
- Verified database connectivity, CRUD operations, and transaction logs in MySQL to safeguard inventory and sales data accuracy.
